

# ASSEMBLY INSTRUCTIONS

Estimated Assembly Time: 2 people 20 minutes

---

**IMPORTANT:** Please read the instructions in full before assembly and keep for future reference.

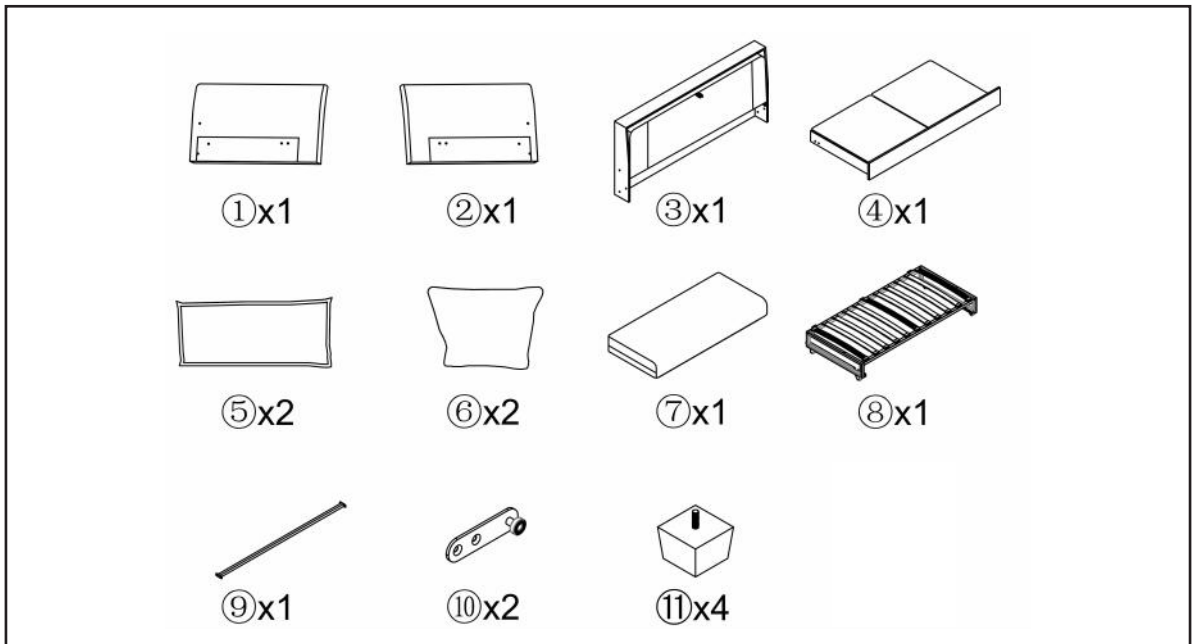

## Care & Maintenance Instructions

- Please periodically check all fittings and re-tighten as necessary.
- Upholstered furniture should not be exposed to direct sunlight for long periods. Please do not place your upholstery in direct contact with a strong heat source . Leave a 30cm gap between upholstery and radiators.
- Please do not allow children to jump up and down on the upholstery.
- Avoid allowing pets on the upholstery as their claws may cause damage to the leather/fabric.
- Avoid sitting on the arms of the upholstery or on the front edge of the seat as this can compress the foam and damage the frame of your upholstery causing premature wear and distortion.
- When your new sofa arrives, you may notice that some of the cushions may have been creased or squashed during transit. This can be simply corrected by gently patting the cushions back into shape to re-distribute the filling and reshape the covering.
- Our fixed cover fabric sofas can be cleaned by using water and a neutral soap to remove stains. Always apply the treatment to a concealed area first.
- For loose cover please reference the care label inside the cover for guidance.

## Safety Instructions

- Take care when unfolding and storing the bed as the mechanism can create entrapment hazards.
- Keep children and pets away from moving parts.
